HUNGARY TOLD TO STAY AWAY FROM RUMANIA

Germany Issues Warning Against Territorial "Grab"

IT'S NOT TIME YET, HITLER DECLARES

Rumania's Pro-Nazi Iron Guard Arrested, Government Says

(By Associated Press)
MUNICH, July 10.—Hungary's leaders were told definitely by Adolf Hitler and the foreign ministers of Germany and Italy today that Hungary must not upset the Balkan apportionment at this time by trying "to secure her rights" from Rumania, informed German sources said.

Premier Count Pal Teleki and Foreign Minister Count Istvan Csaky who came to discuss Hungary's demands that Rumania restore at least part of war-lost Transylvania to her, conferred with the Foreign Ministers Joachim von Ribbentrop and Count Galeazzo Ciano and then were received by Hitler.

Not Time Yet

While both Hitler and Premier Mussolini of Italy are agreed that their program for scrapping the Versailles and other World war treaties means also revision in the Near East, the informants said Hitler holds this is not the time for revisionists to press their claims too aggressively.

However, a brief communique issued by DNB, the official German news agency, said the German-Italian-Hungarian discussions "proceeded in the spirit of the traditional friendly relations among the three states."

There were indications that measures for tightening the blockade against England through closer integration of the Balkans in the axis economic system were discussed.

Arrest Iron Guard Chief

BUCHAREST, July 10.—The ministry of propaganda announced today the arrest of Gen. Ion Antonescu, veteran leader of Rumania's pro-Nazi "Iron Guard," as King Carol II moved to prevent the Iron Guard from wresting control of the government from him.

Antonescu, who had been trying to unite various Iron Guard groups, was seized yesterday at Foculeni, in the Transylvania foothills, "because of an unfriendly attitude towards the present regime," the ministry said.

The king strove to win the support of all factions and quell any internal threat to his totalitarian "party of the nation" to present a united front against outside danger to Rumania's existence.

King Carol has forbidden revival of any outlawed political parties.

A government decree last night forbade the sale outside Rumania of stock in any foreign-owned Rumanian company. This action was taken after reports spread that the \$100,000,000 British oil interests here might be transferred to Russia.

These reports arose simultaneously with disclosure that for weeks British-produced oil has been going to Germany, except for small quantities to Yugoslavia, Hungary and Bulgaria, because the war in the Mediterranean prevented British exportation.

Windsor Is Sent to Bahamas

Appointment of the Duke of Windsor as governor and commander-in-chief of the Bahamas islands, British possessions off the Florida coast, has been announced by the British government. The Duke is shown in the photo with his wife, the former Wallis Warfield Simpson of Baltimore, to marry whom the ex-king gave up the throne of England. The map, below, shows the closeness of the Bahamas group to the shores of the United States and to the islands of the West Indies.

Salem Drivers Pretty Good, Say Jaycee Testers

Salem motorists, on the whole, are good drivers, according to examinations made by the driving test trailer brought here by the Junior Chamber of Commerce.

The majority of persons taking the tests in the trailer, situated at the corner of E. State st. and S. Broadway, were adjudged safe automobile operators and unlikely to cause accidents. A small minority were shown by the tests to be inferior drivers.

Mayor Norman Phillips, police and several state highway patrolmen officiated at the trailer opening yesterday morning. It will be here today and tomorrow.

Mayor Phillips proclaimed the days as "safety days" in connection with the city's safety campaign.

Red Cross Raises \$3,200 For Relief; \$800 More Is Asked

In the midst of efforts to alleviate suffering among the refugees and war wounded in France, the American Red Cross has been called on to aid American citizens fleeing from the various danger points in Europe and Asia. American Red Cross funds have been cabled to Bilbao, Lisbon, Nice and Marseilles to assist Americans arriving in those districts, and Red Cross representatives in Bilbao are aiding in housing, feeding and registering Americans in Bilbao.

The flight of thousands of Americans and British women and children for the most part, from Hongkong to the Philippines made it necessary for the American Red Cross to cable \$25,000 to the Philippines chapter to aid those in distress. Because of war threats it is expected that Manila's white population will be doubled by the exodus from Hongkong, China. With army and navy assistance the Red Cross is setting up mass shelter and feeding for at least 2,500 persons.

To date the Salem chapter of the Red Cross has raised \$3,200 toward a relief quota of \$4,000, it was announced today. Chapter officials appealed to Salem people to continue their contributions to this fund in order that the help asked by the national organization will be achieved.

RECEIPTS AT P-O REACH NEW HIGH

\$100,000 Year Is Seen, If Trend Continues, Says Beardmore

Postal receipts at the Salem post-office are higher today than at any time in the history of the postoffice, Postmaster A. E. Beardmore said today.

Business for the first six months of the present year shows a \$2,152.77 increase over the corresponding period of 1939. Beardmore pointed out that if the present increase is maintained the postoffice will go over the \$100,000 mark by the end of the year.

Total receipts for 1939 were \$97,000. The first half of 1940 shows receipts totaling \$46,984.51, compared with \$44,831.74 for the first six months a year ago, the postmaster said. Postal income last month, amounting to \$8,018.05, was \$809.33 more than the \$7,208.72 figure for June, 1939.

Two Navy Aviators Plunge Into Ocean

WASHINGTON, July 10.—The death of two Navy fliers attached to the Aircraft Carrier Wasp was reported to the Navy department today.

They were Lieut. Joseph I. Evans, Shamokin, Pa., and Hugh Wesley Reeder, seaman, second class, of Dothan, Ala.

Their plane crashed in the Atlantic where the Wasp is taking part in the neutrality patrol. The bodies were not recovered.

Demands Damages

FREMONT, July 10.—Mrs. Thurston B. Berry of Gibsonburg wants \$6,000 damages for alleged removal of her husband's body to "a place unknown" during construction of a cemetery driveway. She named as defendants in her suit C. J. Michael, O. K. Swaisgood and E. E. Brown, Scott township trustees.

WHEELER WON'T BE CANDIDATE IF F. D. R. RUNS

Declares He Will Not Be Party to "Stop Roosevelt" Movement

DRAFT PLAN SEEN BY POLITICIANS

Martin Predicts FDR Will Be Wendell Willkie's Opponent

(By Associated Press)
WASHINGTON, July 10.—Senator Wheeler (D-Mont.) removed himself today from the list of presidential aspirants who expect their names to go before the Democratic national convention, regardless of President Roosevelt's plans.

Asserting that he would not be a party to a "Stop-Roosevelt" movement, Wheeler told reporters that continued silence by the President would have the effect of quashing all other candidates.

F. D. R. Has Enough Delegates
"Of course, Mr. Roosevelt can have the nomination—he has the votes to get it on the first ballot if he wants it, and there is no question about that," Wheeler declared.

"If he doesn't make any announcement, it will be rather embarrassing to everybody else as to whether or not to have his name presented."

Virtually every politician here believes that the President will accept a "draft" nomination, but Mr. Roosevelt himself again parried questions on the subject at his press conference yesterday.

He would not say when he would disclose his intentions. Asked whether he might go to Chicago during the convention next week, he recalled a previous announcement that he would cruise on the Potomac next weekend and had no plans thereafter.

Garner Is Left
Wheeler's position appeared to leave Vice President Garner as the only other aspirant whose friends still insisted that his name would be placed in nomination. One Garner supporter said, however, it was entirely possible that once President Roosevelt's name had been put officially before it, the convention might storm down any other nominating attempts.

Rep. Joseph Martin (R-Mass.), new national Republican chairman, predicted in a press conference yesterday that President Roosevelt would be Willkie's opponent. He said the President was "so available I hadn't thought of anyone else as a candidate."

Martin declared that the Republicans not only would win the presidency, but would obtain a majority of house seats.

Judge Aids Parents In Recovering Son

LISBON, July 10.—Mr. and Mrs. Franklin Cope of New Waterford will be reunited July 17 with a twin son as the result of an informal agreement reached in the court of Judge Homer W. Hammond here.

The Copes instituted a habeas corpus action against Mr. and Mrs. James Hartman, their uncle and aunt, claiming the latter refused to give up one of the twins after the parents placed him in their care when Mrs. Cope became ill.

The twins, both boys, were born Feb. 22, 1938. The mother became ill and was unable to care for both of them so one was left with the relatives.

The parents claimed in their petition for the writ that they had been demanding custody of their child since August, 1939, and without success.

Judge Hammond called the informal hearing yesterday in probate court and, with the parents and their attorney, and the relatives in attendance, was able to reach the amicable settlement.

U. S. Army Experiments With Oil-Burning Diesel Tanks

(By Associated Press)
WASHINGTON, July 10.—The United States army is experimenting with oil-burning diesel engines in an effort to double the distance its tanks can strike without refueling.

This was disclosed by Brig. Gen. Adna D. Chaffee, commander of the new armored corps, in an interview before he left Washington for the field to hasten formation of the mechanized fighting unit.

Success of the experiments, General Chaffee indicated, would mean that Uncle Sam's armored vehicles could operate more than ever as self-contained units, like the old battle cavalry, striking deep into an enemy's communications and thus paralyzing him.

The veteran cavalry officer discussed also the possibility that it might be necessary in some circumstances to refuel tanks by air, presumably by dropping containers attached to parachutes.

Martin Runs G. O. P.

Representative Joseph W. Martin, Jr., of Massachusetts, who was permanent chairman of the Republican national convention in Philadelphia, now is the new G. O. P. national chairman and 1940 campaign manager.

REEDER RITES AT HANOVERTON

Funeral For Automobile Salesman To Be Held Thursday

Funeral service will be held at the Hanoverton Presbyterian church at 2:30 p. m. Thursday for Rolland Reeder, 44, former Salem resident, who was found dead yesterday morning at the home of his parents, Mr. and Mrs. Emmett Reeder, Hanoverton.

Coroner Arnold Devon returned a suicide verdict, reporting that Mr. Reeder had used a shoigan to take his own life. He was said to have been in poor health for the last two years.

Rev. H. L. Rickert will officiate at the funeral rites. Interment will be in the Hanoverton cemetery.

Mr. Reeder was born in Hanoverton Jan. 12, 1896. He was well-known in Salem, having sold automobiles here 10 years ago for Keller's garage. He afterwards went to Warren as a district manager for an oil company. He later reentered the automobile business and for the last six years had been selling cars in Warren.

He was a member of the Hanoverton Presbyterian church and masonic bodies, including Hanoverton lodge, F. & A. M., Salem commandery No. 42, Knights Templar, and the Eastern Star.

Surviving, besides his parents, is one brother, Paul W. Reeder, of Hanoverton.

Blast at Chippewa Wrecks Dance Hall

MEDINA, July 10.—A dynamite bomb explosion ripped up flooring of the dance hall at Chippewa lake park, 11 miles southwest of here, a half hour after dancers filed from the building early this morning. Park employees estimated damage at "several thousand dollars."

The bomb exploded in a rest room on the ground floor, causing a ten-by-20-foot area of the second-story dance floor to buckle. A boat repair works, barber shop and grocery store on the first floor, also were damaged.

Parker Beach, park manager, was unable to account for the blast.

Five Billions For Defense, Asks FDR, Nothing For Attack

Boosts Arms Request to 10-Billions, but Says "We Will Not Send Our Men to Take Part In European Wars"

(By The Associated Press.)

WASHINGTON, July 10.—President Roosevelt asked congress to authorize an additional \$4,848,171,957 for defense today in a special message asserting that "we will not use our arms in a war of aggression; we will not send our men to take part in European wars."

Mr. Roosevelt's request brought to approximately \$10,000,000,000 the funds and contract authorizations asked this session for land, sea and air armaments. Previously the President had asked and the congress voted about \$5,000,000,000 in the two categories.

Specifically, Mr. Roosevelt today requested \$1,161,441,957 in a cash appropriation and \$2,686,730,000 in contract authorizations.

The latter would permit congress to appropriate later a like amount.

"The principal lesson of the war up to the present time is that partial defense is inadequate defense," Mr. Roosevelt declared.

Means Hard Work
"So large a sum means sacrifice. So large a program means hard work — the participation of the whole country in the total defense of the country. This nation through sacrifice and work and unity proposes to remain free."

The President outlined the government's "immediate objectives" as follows:

"1. To carry forward the naval expansion program designed to build up the navy to meet any possible combination of hostile naval forces."

"2. To complete the total equipment for a land force of approximately 1,000,000 men."

BRITAIN, ITALY BATTLE AT SEA

Both Sides Claim Victory, With Reports Varying Widely

(By Associated Press)
Italy sharply disputed Britannia's rule over the seas today as both sides claimed victory in a violent, zig-zag naval battle in the Ionian sea—just below the instep of the Italian "boot."

While the British version said the Italian warships fled "almost immediately" behind a smoke screen, after an Italian battleship had suffered a long-range hit, an Italian communique asserted the British fleet was driven off.

The British admiralty, taking note of "mendacious reports often circulated by the enemy," quickly retorted that the clash had "developed into a chase of the Italian ships" and that there were no British casualties.

"It must be assumed that the Italian naval forces, at least one heavy unit of which suffered damage, have gained the shelter of their home defenses," the admiralty added.

Took Initiative, Say Italians

The Italian communique, which admitted casualties of 29 killed and 69 wounded, insisted the Italian naval forces sought out the British men of war "to head off" an apparent British plan to attack Italian coastal positions and succeeded in contacting the enemy.

The Italians said one British warship—"probably a battleship"—was sunk while "only one of our warships was hit." They admitted, however, the sinking of the Italian destroyer "Zeffireo" and loss of one submarine.

Then, the communique declared, after brief, intensive firing, "the enemy gave up its objective and moved off toward the southeast."

Italy's claim of seeking the initiative in the sea battle differed markedly from the British account, which reported its royal navy "made contact" with the Italian ships and pursued them in flight.

Seek Physiologist

Civil service applications will be received at the postoffice until July 31 for the job of assistant physiologist at Wright field, Dayton. The position pays \$2,600 a year.

P. O. Heston, secretary of the local U. S. Civil Service commission, said applicants, who must not have passed their 30th birthday, must be college graduates and must have majored in biological science.

10 NAZI SHIPS BROUGHT DOWN, LONDON HEARS

Battle Follows Invaders' Raid On Convoy of Small Ships

ANOTHER BOMBING UNIT HITS INLAND

Buildings Shaken, "Few Persons" Killed, Say British Reports

(By Associated Press)
LONDON, July 10.—Ten German planes were reported shot down this afternoon in a great air battle over England's southern coast and the English channel involving nearly 150 planes.

An air raid warden at a south-eastern English port said two formations of German raiders, each nearly 50 strong, attacked a convoy of small ships and he believed one ship was sunk.

"I saw three bombers go down in less than two minutes as the British fighter pilots maneuvered to encircle the Nazis," he declared.

The warden was authority for the estimate of the forces involved and German planes destroyed.

Divide-Bombing Attack

The warden said that in a colossal dive-bombing assault, the Germans enveloped the ships in a cloud of smoke.

Anti-aircraft guns (presumably on the ships or the nearby coast) helped the fighting planes break up the raid and smoke poured from several of the raiders as they retreated toward Boulogne, on the French coast.

British accounts of another phase of the battle, over land, said more than 30 German bombers, accompanied by German Messerschmitt fighting planes, kept in close formation until swift British Spitfires split them up. Then they released their bombs, shaking buildings for miles inland, and turned back toward France, according to British accounts.

The government announced that "a few persons" had been killed on the south coast of Britain when German bombers struck there.

Anti-aircraft batteries went into action elsewhere along the coast as raiders made attacks which have become almost a daily routine. Many casualties were reported to have been caused in Wales by German bombs.

Planes Do "War Dance"

"When our planes returned," one witness said, "they did a sort of war dance in the sky, cutting figure eights in apparent high glee at having put eight of the enemy to flight and accounted for at least two of them."

Anti-aircraft batteries were kept active elsewhere along the English coast as German raiders continued a series of attacks which have become a daily routine.

One Nazi bomber penetrated Wales, and dumped its bombs before fleeing under heavy fire.

In one district of Wales, many casualties were caused by German bombs.

One man was killed and many houses were damaged when German planes dropped five bombs on a town in southwest England after daylight this morning.

A German Dornier 17 bomber was shot down by British fighter planes off the east coast of England early this morning, the air ministry announced.

A total of nine German planes were shot down yesterday, the air ministry said, adding one to its previous total.

Mother, Daughter In Court Battle

Mrs. Cora Burley of R. D. Salem, filed charges of petty larceny and assault and battery against her daughter, Mrs. Margaret Sprowl, of Salem, in Mayor Norman Phillips' court yesterday.

The daughter filed a counter charge against her mother of failing to register a motor vehicle.

Hearings were held today in the mayor's court.

Mrs. Sprowl, the daughter, pleaded not guilty to charges of petty larceny and assault and battery and was held to the grand jury. Bonds were set at \$100.

Mrs. Burley pleaded guilty to the non-registration charge and was fined \$25 and costs.

The mother charged that her daughter came to her home and carried articles back to her own home.

Report Ship Sunk

LISBON, July 10.—Thirty crew members of the Netherlands Tanker Lucrecia 2,584 tons, landed today at Porto, Portugal, and reported their vessel had been torpedoed and sunk off the Spanish coast.

The captain and two seamen were killed.

THE LULL

When it's all written down, perhaps the lull before the battle of Britain will be mentioned. It had reached a stage of nervous suspense at the end of the first week in July which was unbearable.

For at least two weeks after the rout of the French in the battle of France nothing much happened. Nevertheless, everybody knew that frenzied preparations were afoot to bring to a conclusive decision the greatest military issue of a generation—perhaps several generations.

They knew that the German army was preparing to exterminate British civilization, as it previously had blotted out French civilization. Continuous bombing raids were a reminder that the victims were being terrorized—softened up—preparatory to the kill.

It was argued that the Germans could or could not do what they admitted they intended to do. Britain was different from France, said the optimists. The British fleet would be heard from. The British population would stick together. The blockade would begin to hurt Germany. Europe would be starving before long.

But no one dared believe slaughter could be averted, no matter how little. British children were sent abroad. Citizens were warned not to try to run from death, but to face it where it found them lest they multiply their troubles by congesting the roads. Spokesmen talked of a home defense force of 5,000,000. There were pictures of middle-aged Britishers sharpening their shooting eyes. The London Times told readers how to identify a Nazi parachute trooper at a glance. In one way or another all the suspense which had been generating itself from the beginning of the war came to a head in the few weeks between Germany's seizure of Paris and the battle of Britain.

If historians forget to mention it, old timers who remember what it felt like to wait for the real battle of the century to begin will be able to fill in the details.

CANADA'S UNCERTAIN STATUS

The hush-hush rule is no good for Canada any more. Americans on this side of the border are beginning to wonder what Americans on the other side would do if certain things happened.

Chief possibility is defeat of Great Britain. Canadians don't like to think about it; neither do citizens of this country. But that doesn't make it impossible.

Canada is at war with Germany. The latter would try to use Canadian attachment to the British to force the most favorable terms possible in event of victory. For instance, Germany might demand as one condition of an armistice that Canada permit it to establish air bases in the vicinity of Toronto, or submarine bases at Halifax. Or Germany might demand that Canada comply with policies laid down in London, then make London a political outpost of Berlin.

In that event the world's longest and most famous unfortified border would become one of the world's most painful and expensive headaches. The United States has good reason to begin wondering whether Canadians would be bound by the kind of peace Adolf Hitler would inflict on Great Britain if he ever got a chance. The debacle in France has destroyed all hope of a generous settlement. The grim fact is that the Nazis count among their formal enemies a nation of this hemisphere and that nation soon may have to decide how far it is willing to go to appease Hitler's wrath.

FOR SERVICE RENDERED

With Mr. Wilkie promptly approving a \$5,000 limit on campaign donations, the Hatch bill takes a new lease on life. An amendment setting that limit had quered some Republican support.

It made the bill almost as obnoxious to some old line Republicans as both it and its "clean politics" predecessor was to all old line Democrats. Sen. Hatch, author of both bills, was soundly hissed at the 1940 Jackson day banquet in Washington.

Republicans believed the purpose of the \$5,000 limit was to hamstring their party, which traditionally has depended on large contributions. Democrats, on the other hand, used to depend on small contributions but lately have learned to depend on the United States treasury, according to charges filed against them by their critics. They also have discovered other sources. In 1936 while Republicans were gathering 282 contributions of \$5,000 or more, Democrats received only 79, but the latter picked up approximately \$770,000 from trade unions that year.

Apparently the prospect of broadening the party's financial base holds no terrors for Mr. Wilkie. It will multiply the party's money-raising problems but—a thing its leaders have missed—it will multiply its effectiveness too. Five thousand dollars is enough for an individual to donate. It may be enough for organizations to donate too.

IMAGINATION

The harmless hot weather diversion of wondering what President Roosevelt said to James A. Farley and vice versa is an interesting study in imagination.

A—No one but the two participants know what was said. B—Some very interesting things might have been said. The result of combining A and B is the conclusion that some very interesting things were said. This conclusion seemingly is upheld by Mr. Farley's air of seeming to know more than he is willing to talk about.

However, merely by insisting that since no one knows what was said, the conversation might have been a complete bust, instead of a soul-shaking exchange of viewpoints, a skeptic may reach the conclusion that President Roosevelt said nothing to James

A. Farley, except, "Hiya, Jim, have you heard the one about the farmer who went into a drugstore?" Naturally, the postmaster general wouldn't want to admit that they talked about THAT.

THE STARS SAY:

For Thursday, July 11.

A VERY lively day is forecast from the dominant lunar aspects, although things may not move spectacularly but may develop with steady progress into satisfactory achievements. The forces and faculties are fairly well stimulated, with business and constructive work marching on to the cherished ends. Cooperation with fraternities, educational, social or humane groups are particularly favored.

Those whose birthday it is may anticipate a year of definite progress in the direction of moderate objectives, under the spur of alert, decisive and potential forces and faculties. Group work is favored.

A child born on this day should be enterprising and ambitious, with keen and highly-stimulated intellect, possibly inclining to sharp and offensive verbal expression, to its detriment, although it may be sensitive and sympathetic. The legal profession demands such specific gifts.

The sleep of Secretary Morgenthau must be disturbed by a nightmare in which Hitler gets control of the world and passes a law declaring that our enormous stock of gold is nothing but hay.

The pain for the best political wisecrack of the week must go to Representative Joshua L. Johns, Wisconsin Republican, who invented the slogan: "Draft Roosevelt and he'll draft you."

The words "fifth column" have quickly found a place in our beautiful language. Already the term is being used to designate a person with whom you disagree on the issues of the day.

"ORNERY" YOUTH MAY BE SUCCESS

So, Cheer Up, Parents, If You're Worried About Him

(By Associated Press)

DES MOINES, Ia., July 10.—Cheer up if your young son is an ornerly little troublemaker. Homer White of Des Moines says such a lad is more apt to be a success as an adult than if he didn't pick on the neighbors' kids. And Homer ought to know. He has had more than 10,000 boys under his wing at one time or another during his 52 years with the Western Union.

White, veteran district telegraph supervisor here, said he never yet has found a boy who was "wholly bad."

Millions of American parents will say "amen" to his next conclusion. "There isn't any set rule by which you can handle boys," he said. "God didn't make any two of them alike."

Nevertheless, he added, long experience has taught him the truth of these generalizations:

1. Almost invariably the "bad egg" is more capable than his companions and therefore is "subject to development beyond the possibilities of the ordinary boy."

2. If you win a boy's confidence, he won't try your patience. "But if you try to control his activities without first getting him on your side, he will drive you nuts."

3. "Draw upon your own personal experience as a boy and show him you understand his problems and are willing to help him solve them."

Not once in his half century of dealing with the younger generation has he found it necessary to turn one of his boys over to the police, he says.

They Are Destiny's Shapers

Ductless Glands Make Us What We Are

By LOGAN CLENDENING, M. D.
THE DUCTLESS glands work constantly and upon their smooth and efficient operation depends much of our happiness, good appearance, disposition, spirits, and even personality. I am not one who believes that criminals and morons are that way because of defectiveness of their ductless glands and that they can be changed into something good and noble by a few shots in the arm. Nor do I think Napoleon was Napoleon on account of his pituitary

Dr. Clendening will answer questions of general interest only, and then only through his column.

gland—or Mussolini or Hitler, or Stalin, either. Heredity and environment have most to do with crooks big and little.

But size and shape have a good deal to do with the way a man or a woman fronts the world, and the glands have a good deal to do with size and shape.

There is a destiny shaper that lies up in the skull in the pituitary gland. It's a very small, little piece of flesh to have so much to do with so many things not as big as the end of your little finger. But if it gets to be as big as the end of your thumb, there is the dickens to pay.

Makes Us Grow

Growth, both vertically and horizontally, depends on the pituitary gland, and nobody can deny that it has some effect on the personality. Six feet three looks at the world differently than four feet eight. And two hundred and fifty pounds finds things different every minute of the day and night from a hundred and fifty.

Overactivity of the pituitary gland causes gigantism and removal of the gland (in the rat as the experimental animal) slows growth and development generally. Looking at them one would not think he was looking at an animal some months, rather than some weeks, old.

If the contrary experiment is carried out—of infecting pituitary extract into some of the newborn animals of a litter—they grow twice or three times as fast as their untreated litter mates.

But Don't Hurry

Undoubtedly the dumpy little, fat children, so often seen, have a slowly functioning pituitary gland. Parents, however, should not try to rush things in these cases by resorting to pituitary gland injections. There are plenty of plump little girls and boys at around the age of 9 to 11. The parents sigh over these, but in the great majority of cases the pituitary begins to function suddenly at 12 or 13 years and the plumpness disappears so that at 16 or 17 they are as slender and graceful as a willow wand.

In many cases of overdevelopment or over-secretion of the pituitary gland, producing gigantism or overgrowth of the jaw and hand and foot bones, it is possible to reduce the growth by the use of exposure to the irradiations of the X-ray. Thus we have means of reducing and of replacing the secretion of this "master gland" of human destiny.

QUESTIONS AND ANSWERS

P. J. M.—"Can you give me any information concerning the cause of leg cramps during the night?"

Answer—Cramps in the legs may be due to spasm of the arteries (called intermittent claudication) but these usually come on after exercise. Cramps at night

sound like muscular cramps which are harmless and are best treated by leaving them alone. Cramps due to arterial spasm should be treated with exercises, raising and lowering the limb, and intermittent pressure with a blood pressure bag, but in any case I think a person call for medical consultation.

"TITAN TOWER" by JAMES C. CHESNUTT

STORY SO FAR
Acquaintance of handsome Dr. Bill Blaine and charming Nurse Linda Morton as they treat elevator accident victim atop skyscraper, Titan Tower, quickly kindles to romantic temperature. It was the first time anyone had stirred Linda since the death of her airman husband, Mike Morton, by whom she has small son, Mickey. Reminiscence of her whirlwind courtship, and tragic death of the irresponsible Mike, leaves Linda in great mental turmoil. If it had not been for her kindly neighbor, Mrs. Blauer, who had been a second mother to little Mickey, Linda would not have known where to turn.

CHAPTER SIX
It was Mrs. Blauer, too who had started Linda on her new career, countering to keep young Mickey during the day while Linda studied at first and, later, while she worked. An old practical nurse, Mrs. Blauer had suggested that Linda, already a registered nurse, study stenography to qualify for an office assistant's job with a doctor.
When she had finished her course, Linda went directly to Dr. Thorpe, her old anatomy instructor at the university.
"Dr. Thorpe," Linda had said, "I'm back to earth. I'm not a stewardess any more. I am qualified as a nurse and also as a secretary. I want to work. I have to — for my baby and myself."
Dr. Thorpe gave her a job.
Linda had much for which to thank Janice Marberry, too. She had taken an instant liking to Janice on that day they first met in the insurance office in Titan Tower. It was Janice, and her roommate, Josephine Monroe, the tall, willowy sophisticate who was such a strange contrast to little Janice, who had come to little Linda moved to the same building where they shared an apartment.
Janice and Jo would be dashing in any minute now, eager for details of all the thrilling events of the afternoon. She'd tell them about the accident, all right, Linda resolved, but should she go on from there?
Should she tell the girls about little Linda being knocked for a loop again by something that looked like love? Maybe they'd know something about Dr. Blaine, she reasoned; they had worked in the building longer than Linda.
Finally she compromised with herself. She'd tell them, but casually—with no show of excitement—and ask indifferently if they knew the young man. That would do.
This problem decided, Linda's mind flew back to the dream from which Mrs. Blauer had awakened her—the dream and the mental turmoil which occasioned it.

Linda remembered, wondering if Mike still observed their 11 o'clock custom.

The fog part was natural. Every bad dream she had experienced in past two years had its events set against a backdrop of fog. Fog... and falling. That fixation, subconscious though it was, went back again to Mike and a tragic night...
Linda had flown through the fog many times, experiencing no fear after the first tension of the neophyte flier upon seeing the ship dip into cottony vapor which looked as thick as the inside of a mattress. She never failed to get a thrill during the first moments, when the red and green lights on port and starboard wings, normally almost invisible from the cabin, dyed the fog on either side of the plane, spreading ruby and emerald glow as far as one could see on either side.
It wasn't foggy at the airport that night Mike took off on a new trip. There was an unlimited ceiling, topped by a frosting of stars. Linda, feeling a strange uneasiness, Linda was something more than the miserable way she felt anyway, watched the takeoff.
Odd, how she could remember each insignificant, unrelated detail, now—years later.

PATROL CHANGES ARE SUGGESTED

"Seriously Undermanned" Is Report of Police Organization

(By Associated Press)
COLUMBUS, July 10—Sweeping changes in Ohio's seven-year-old highway patrol were proposed in a 136-page report of the International Association of Chiefs of Police to Robert S. Beightler, state highway director.
Describing the patrol as "seriously undermanned," the report said that Ohio, while fourth in population, miles of state highway and number of vehicles, ranked 10th in patrol size. It advocated changes in manpower, training and enforcement.
Beightler said he would confer later this week with Patrol Sup't. Lynn Black regarding the report. The recommendations, based upon the patrol in its present size, included:
Transfer Exams
1. Transfer of new drivers' examinations and school bus inspection to the bureau of motor vehicles, relieving patrolmen of weekly driving tests requiring 33 men and inspection of 5,756 school buses.
2. Substitution of one-man patrols for two-man, except where unusual hazards exist, and addition of 31 new cruisers to bring the patrolman-car ratio to 4-3. (On Jan. 1 there were 93 motorcycles and 58 cars for the 128 uniformed patrolmen.)
3. Redistribution of personnel on the basis of accidents, traffic flow and highway mileage, with these district adjustments suggested: Findlay, increase from 27 to 30; Massillon, from 36 to 47; Wilmington, from 28 to 29; Cambridge, reduce from 28 to 19; Columbus headquarters, reduce from 9 to 3.
4. Elimination of weekend and holiday time-off and limiting of special details to 10 per cent of man hours. Weekend off-duty hours are now taken up to 36 per cent of the force, and special details in 1939 numbered 540, including 334 escorts.
5. Increase in number of arrests by two to four times.
Seek Standard Reports
6. Adoption of a standard accident investigation and reporting procedure, with a doubling of the personnel in the bureau of accident prevention.
7. Purchase of camera equipment and "drunkometers" (apparatus for chemical intoxication tests) for each patrol car.
8. Inauguration of a warning tag system for first violators.
9. Establishment by legislature of a magistrate court system providing at least one such court in each county to try traffic cases.
10. Change of patrol age eligibility of 24 to 40 years to 21 to 23 years.
11. Complete revision of the training school curriculum, with fewer total hours and more emphasis on traffic problems.

Today's Pattern

Trim on Princess Dress

Pattern 4497

First vote of most any fashion-wise woman goes to the princess style every time! This semi-tailored frock by Anne Adams, Pattern 4497, shows the reason for its popularity. See for yourself how slim and supple those long, straight seams look, uninterrupted by any fussy details. The simplicity of the frock is relieved by a decorative collar, shaped in gay points and smart in either self or contrasting fabric. You might add matching cuffs if you use short sleeves, and lace edging, buttons and a ribbon bow make soft, feminine touches. The Sewing Instructor makes this frock so simple that even a timid beginner will have no difficulty.

Pattern 4497 is available in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 14 takes 3 1/2 yards 39 inch fabric and 1/2 yard contrast.

Geppetto and the little puppet in "Pinocchio," showing at the State theater Thursday through Saturday.

A new Walt Disney feature is always entertainment news, and his latest "Pinocchio," taken from the famous fairy tale, which shows at the State theater Thursday through Saturday, is no exception.

The favorite child's story tells of the puppet of wood called Pinocchio, whose creator, the gentle old toymaker, Geppetto, wished for a real boy. Given life by a fairy, Pinocchio has to learn through experience the difference between right and wrong. An intrepid cricket, Jiminy Cricket, is appointed keeper of Pinocchio's conscience and shares the little puppet's amazing adventures from the time the little wooden boy tells his first falsehood and finds his nose grows with each one to Pleasure Island, where bad little boys turn into donkeys. His last adventure is to the floor of the ocean to rescue the old toymaker, who has been swallowed by Monstro, the whale.

Like all Disney creations, the characters in the cartoon assume human, real identities, as delightful in their way as Snow White and the dwarfs.

At the State tonight only is "Those Were the Days," with William Holden, Bonita Granville, Ezra Stone and Judith Barrett.

Tonight's double bill at the Grand is "The Island of Doomed Men."

INVENTS NEW RAY TELESCOPE

Scientist Says It Picks Up Rays from Limitless Horizon

(By Associated Press)
CLEVELAND, July 10.—Dr. Matthew Luckiesch reached into his desk drawer and brought out a metal telescope.
"Here is the only one of these in the world," he said proudly. "With it I could see from here to Chicago (320 air miles)."

"Nothing but ultra-violet rays come into my telescope. Put a machine to discharge them anywhere within the horizon and I'll pick 'em up. By going up in an airplane, of course, I could stretch out the horizon as far as I wanted it."

Has Military Uses
Practically, the instrument remains in that strange, unknown land between today and tomorrow—but Dr. Luckiesch, one of the world's greatest authorities on light, feels "it should have some military uses."

"I thought of a telescope such as this during the World war," he said, recalling the wageless hours he spent discharging his duties as national research council camouflage chairman. "It would have been useful in conveying darkened troops, for the pilots could have signaled back and forth with ultra-violet light, free from much danger that enemy submarines would see them."

"You can intercept the radio, telegraph, telephone. But intercepting the ultra-violet signals would be something else."

The telescope's inventor described its construction as "essentially simple—lenses and a screen to receive the ultra-violet rays." A more detailed description, he said, would have to be "off the record."

This pleasant man who directs General Electric's light research laboratory here has played a big part in prescribing for real life many things akin to the fantastic devices H. G. Wells has put into books.

Sees Many "New Horizons"
Some now are existent—windowless houses, germ-killing maps, X-Ray diagnosis of materials in industry. Dr. Luckiesch's conception of possible "new horizons" include many more, some startling.
"Perhaps, beyond the horizon are motion picture theaters of past history," he speculated. "Traveling through space are scenes emitted in the form of patterns of electromagnetic energy ever since there was light on earth. A super-telescope of enormous electrical magnification may bring them to our screens—not merely events of today but of yesterday and of ones long past—unless cloudiness or darkness at the time extinguished these patterns."
"There is the possibility of new horizons in the offing that can bring us thrills even though we may have become much more blasé."

Also beyond the horizon, but much nearer, Dr. Luckiesch sees advances more objective in their nature. One is a "ribbon of light" highway network illuminated by super lamps, relegating today's automobile headlights to use on side roads. Another is "light control" in biology, affecting the growth and even the species of plants.

STIMSON GIVEN O. K. BY SENATE

Similar Approval of Knox For Navy Post Is Predicted

(By Associated Press)
WASHINGTON, July 10.—As congress awaited a huge new defense recommendation from President Roosevelt today, senate confirmation of Henry L. Stimson as secretary of war presaged similar approval of Col. Frank Knox for the navy post in the cabinet.

Mr. Roosevelt said his latest message on preparedness needs would be sent to Capitol Hill during the day, and one high official forecast that it would ask about \$4,800,000,000 in cash and authorizations for tanks, planes, guns and ships. Favorable action on Knox' appointment, meanwhile, was generally taken for granted. Administration leaders considered all uncertainty removed when the senate voted 56-28 to confirm Stimson.

Party Lines Divided
Party lines divided in that tally yesterday, with 45 Democrats, 10 Republicans and 1 Independent voting to confirm, and 14 Democrats, 12 Republicans, 1 Progressive and 1 Farmer-Laborite favoring rejection. Sen. Robert A. Taft, Ohio Republican, voted against confirmation while Senator Vic Donahey, Ohio Democrat, was not listed as voting.

Completion of senate action will end an interregnum of several weeks in the nation's key defense posts and put two Republicans in charge of an expanding army and navy program for which about \$5,000,000,000 in cash already has been provided.

Stimson's confirmation came after two days of acrimonious debate which closed when Democratic Leader Barkley appealed for approval in the interests of national unity.

Many senators who opposed Stimson because of his views on international affairs said they would vote against the Knox appointment on the same grounds.

Called "Interventionists"
During the debate, Stimson and Knox were bracketed as "interventionists" by their critics, who asserted that the nominations represented dangerous new moves by the administration along a path leading toward war.

Senator Tydings (D-Md.), opposing Stimson, and Senator Pepper (D-Fla.) clashed on this issue yesterday, while crowded galleries alternately hissed and applauded despite warnings that spectators would be expelled for demonstrations.

Pepper, supporting Stimson, denied that he himself favored a declaration of war against Germany—a course toward which Senator Taft previously had said Stimson's policies would lead.

California, Ready To Build Airplane Plants, Awaiting "Go" Signal From Capital

BY DEVON FRANCIS
Associated Press Aviation Editor

LOS ANGELES, July 10.—Plans have been completed for the construction of a half dozen new aircraft plants in southern California, where some 60 per cent of the nation's heavy-tonnage and military planes are manufactured, but the men behind the ventures are waiting for a green light from Washington.

The airplane makers, suddenly faced with the monumental task of giving substance to our air rearmament program—now taking shape in the national capital—say they can turn out warplanes as fast as:

(1) The engine makers can supply engines.

(2) The Army and Navy can find use for the new equipment.

How About 50,000 Planes?

That is as close as the layman can come to getting an answer to the question inferred in President Roosevelt's message to congress on May 16—how and when can our air defense be buttressed with 50,000 airplanes?

I have emphasized before that American air rearmament in full stride will depend as much on the production of pilots to fly airplanes as it will on the production of the machines themselves. The government's training plans have crystallized in advance of its plane manufacturing plans, but the pilot quotas set by the Army and Navy will not man 50,000 planes this year or next year, or probably, by the close of 1942.

Air rearmament will be a colossal government job in coordination, not only in industry but in commercial and government flying schools as well.

Some leaders in the American aircraft industry have told me in the last few days that an actual production of 50,000 warplanes in the next 12 months with the necessary plant construction and tool and die installation it would require, would be an impossible task, both in terms of the effort expended and the amount of money involved.

In New York last month Charles E. Kettering, vice president of General Motors Corp., outlined the rearmament problem in these words: "The only thing that's going to defeat the American armament program is that the American people don't understand exactly what you have to do to make

a lot of something. How long it takes for the whole make-ready isn't understood."

What's Been Happening

In token of that, here is what has been happening between the airplane makers and official Washington:

First, the government asked the manufacturers how many planes they could make. In reply, the manufacturers asked how many do you want, what types and how soon? At that point the national defense commission newly appointed by President Roosevelt, began drawing up a plan of coordination embodying the work of the plane manufacturers, the engine manufacturers, the tool and die makers and subcontractors. The automobile industry also was drawn in.

Then the commission returned to the plane makers with a definite procurement program. Now, it asked, when? Again the manufacturers posed a question: How soon would funds be available on contracts? Because that in part would govern the expansion rate. The commission had to submit to the White House for approval a wholly tentative appropriation figure, because production rates and costs are on a sliding scale.

A certain amount of money must be in sight before the manufacturers can tell on their own books what the unit cost of any given airplane will be.

Program Developing

Both sides to the problem finally are making some sense out of the round-robin, but it has taken weeks of effort and a determination not to let procurement policies develop helter-skelter as they did in the initial phases of our World war effort.

The half dozen aircraft factories which are ready for erection in this area of movie sets, countless miles of orange groves and flashing duralumin wings, will be thrown up to turn out training planes if official Washington decides that it wants them built.

The whole rearmament picture, and particularly that portion of it devoted to air rearmament, is caped by what might be termed an "iffy" situation. One standstill statement has been issued in the last few weeks. Glenn L. Martin, the Baltimore airplane maker, says we can do in one year of air rearmament what Germany has done each three years since 1933.

Paris Vastly Changed From Gay Center Of A Year Ago

(By Associated Press)
PARIS—(Via Berlin)—Paris has settled into the kind of life it may live until a peace treaty is signed. Since war has washed through it, this city is vastly changed from the gay and brilliant center which Americans knew only a year ago. Its buildings, cafes, parks and monuments still are here, but two-thirds of its population is scattered over France and the German troops are in occupation. The occupation has not been harsh.

French Carry On
The French municipal administration carries on with its own police. Frenchmen who have to deal with the authorities deal with Frenchmen.

What laws have been laid down by the Germans are enforced by the French. Neutral observers have seen no French opposition or disobedience.

The populace appears too thoroughly defeated to think of anything but acceptance.

The police force has been divided into three sections, each headed by a German colonel.

German soldiers and officers may be seen everywhere, taking a tourist's interest in the city.

During the day, German planes drone constantly overhead and detachments of German troops march through the streets.

Vincent Paul Is Tennis Surprise

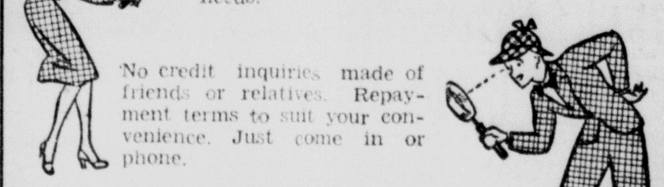

NEW YORK, July 10.—Vincent Paul, a big, red-haired designer of men's clothing who still doesn't know whether he'd rather live in Detroit or Brooklyn, admitted yesterday that he has serious designs on the New York State clay court tennis championship.

This was immediately after he had defeated George Littleton-Rogers, former Irish Davis cup star, in a stirring three-set match to enter the quarter finals.

Paul already has become the sensation of the tournament, stealing the spotlight from a dozen or so nationally-known players. Only one other, top-seeded Don McNeill of Kenyon college, has advanced as far in the tourney. He joined Paul in the round of eight with a 7-5, 6-4 victory over George Pero of Miami, Fla.

LEETONIA GAINS EIGHTH WIN IN CLASS A RACE

MERCHANTS TOP RECREATION TO STAY IN FIGHT

Leetonia Club Remains In Running For First Half Honors

The Leetonia Merchants, given new hope in the Class A Softball league when the Carroll Club upset the National Sanitary Monday, remained in the running for the league's first half championship by turning back the threat of the Salem Recreation 2 to 1, last evening.

Two Games Left

The Leetonians have two games remaining on their first half schedule, one against the Salem News Thursday evening and the other an all-important clash with the Sanitary. The Merchants game with the Sanitary, a postponed contest scheduled to be played last night after the regular first half schedule is completed, is expected to decide the first half championship of the Class A circuit.

A 12-hit attack, supported by perfect fielding, enabled the Merchants to take the measure of the Recreation's veteran stars, who, until last evening, were a contender for the first half championship.

Taking the lead with a three-run outburst in the fourth inning, the Leetonians were never headed as they added four runs in the sixth and one in the seventh. The Recreation led for three innings on the strength of one run scored in the first frame, but fell behind when Leetonia uncorked a three-run spurt in the fourth.

Mike Mancuso and Holland shared hitting honors for the Merchants, both getting three hits in four trips to the plate.

An abbreviated five-inning game between the Trades Class and Roberts Men's Shop preceded the Leetonia-Recreation contest with the Trades Class winning in a romp, 10 to 4.

Started Late
The game was called at the end of four and one-half innings because it was started late. The Trades Class held Roberts to three runs in the first and one in the fifth while parading to victory with four runs in the first inning, three in the second and three in the fourth.

It was the Trades Class' second win in seven games while the defeat was Roberts' eighth in 10 starts.

The Young People's Catholic Club and Methodists chalked up victories in Church league games to remain tied for the lead in the league's second round campaign.

The Y. P. C. C. upset the Presbyterians, 8 to 6, for their fourth straight win of the second round. The Methodists gained victory No. 4 by spanking the hapless Christians, 7 to 4.

Breezy Briefs Of Sport From Brietz To You

BY EDDIE BRIETZ

NEW YORK, July 10.—Patty Berg, who was to have turned pro yesterday, has postponed the ceremony until tomorrow or Friday. From the coast comes word Jack Dempsey has sold his Barbara hotel at Los Angeles at a terrific loss—which may be the tip off why Jack finds it necessary to tour the provinces consorting with wrestlers. Rumor foundry: That by 1945 (which gives a decent interval for quietly giving Chicago the heavenly) the Big Ten will replace the Maroons with Nebraska from the Big Six.

Business Note

Since Tony took his thumping, his business has been slumping. And there's moaning at the Orange, New Jersey bar. Yes, there's weeping and there's wailing. For the schooners aren't sailing. As they did when Tony shot the course in par.

Boy, Is He Mad!

Jimmy Dykes is so sore at some of his White Sox he forbade the players to leave town during the three-day All-Star game respite. Olivia DeHavilland, the film star, has placed herself under the wings of big Olein Dutra on the coast and told him to get her ready for the tourneys. The Dodgers, who are playing the owl circuit this week, had to take along four Brooklyn semi-pros to catch up the slack caused by the All-Star game and hospital list.

Today's Guest Star

"Si" Burick, Dayton News: "Somebody suggested Barney McCosky and Dixie Walker, who were ignored in the All-Star selections, must feel like a football team that wins all its games and then isn't invited to the Rose bowl." Or like Ed (they done him wrong) Oliver.

He's the Goat

Ken Keltner who (A) asked the unemployment insurance and (B) was one of the Cleveland cry babies, is getting it going and coming these days. The White Sox bore down so hard in a double header, Keltner went to bat nine times and didn't get a fourth. Jimmy Dykes yelled: "There's only one thing worse than you, Keltner, and that's the war." Auburn thinks it will hang up some sort of record this fall by playing four of last January's bowl teams—Tulane, Georgia Tech, Clemson and Boston College.

Job Wanted

Don McNeill, the tennis star, is all dressed up with no place to go. Recently he completed four years of study for the foreign diplomatic service at Kenyon college. Now he's thinking of learning another trade, the demand for ambassadors being what it is.

Headline Headliner

The Oakland Tribune captioned a photo of Maurice Tillet, the wrestler: "Parfum d'Angelica—an angel who smells."

Cousin Joe

The National league gives Cronin thanks

The Salem Window Cleaning Co. softball team defeated a Lisbon team, 1 to 0, in a donkey softball game under the lights at Lisbon last night. The Window Cleaners played the Lisbon team after losing to Tyson's Bulldogs in a game at the Blackburn Hill field.

WEST DRIVES IN NATIONAL RUNS WITH HIS HOMER

Hunch Caused McKechnie To Use Bees' Star In Lineup

By HAROLD CLAASSEN

ST. LOUIS, July 10.—At noon it was a hunch—nothing more—that caused Manager Bill McKechnie to insert Max West of Boston in the starting lineup of the National circuit in the annual major league All-Star baseball game.

Thirteen minutes after the contest was under way, it was a brilliant piece of strategy as West deposited a three-run homer in the right field bleachers and started his mates toward a 4 to 0 triumph over the American league.

McKechnie's belief that Mel Ott of the New York Giants, listed to start in right field until shortly before game time yesterday, would be of more value in the late innings when that garden would be the sun field prompted the Deacon to make the change.

Just a Hunch

"It was my hunch that Ott, who is older and more experienced, would be a bit steadier in the sun and that is the only reason for the change," McKechnie said. West's knockout punch before a man was out in the first combined with an assortment of all star pitching produced the third National league victory and the first shutout of the competition.

Five hurlers the Nationals summoned to the mound—Paul Derringer and Bucky Walters of the Reds, Whit Wyatt of Brooklyn, Larry French of the Cubs and Carl Hubbell of the Giants—doled out three hits.

Luke Appling of the Chicago White Sox, collected a double and a single and Buck Newson, the bellicose Detroit finger, cracked a one-baser. Never did the losers have more than one runner on the paths and Appling was the only one to get beyond second.

It was the White Sox shortstop's double off Derringer in the second that brought about West's removal. The Boston clouter tried to make a leaping catch and slammed into the concrete retaining wall. He suffered a bruised hip but is expected to play again Thursday when action is resumed in the big leagues after a three-day layoff.

Billy Herman, the Cub second baseman, laced out three hits—equal of the entire opposition output—and late in the fracas a double play by Eddie Miller of Boston, Pete Coscarart of Brooklyn and Frank McCormick of Cincinnati nipped a threat.

And after McKechnie pulled his first team the "seconds" scored the fourth run off Cleveland's great Bob Feller in the eighth but they needed an error by Catcher Rollie Hemley to chase the tally across.

Gordon Stars

Aside from Appling's robust clouting the losers' chief contribution to the entertainment of the 22,373 fans was the fielding of Joe Gordon, Yank middle sacker.

McKechnie's choice of West, who eluded the first assault on Charley Ruffing, was an admitted "lucky hunch," but he catered to the St. Louis crowd by playing their own Terry Moore in center field, the full nine innings although he used 33 of the 25 players allowed him.

Only Manager-Shortstop Leo Durocher of Brooklyn and Pitchers Hugh Mulcahy and Kirby Higbe of the Phillies were inactive.

In addition, he jeopardized the success of his league-leading Reds in this weekend's series with the second place Dodgers by giving the spectators a two-inning look at both his ace flingers.

Manager Joe Cronin sent 18 of his stars into the lineup but the best they could do was hoist five flies plus the three hits to the outfield.

NEW YORK

Ken Overlin, 161½, Washington, middleweight champion in New York and California, stopped Harry Balsamo, 170½, New York (9).

National League Blanks American, 4 to 0, In All-Star Game

How three of the National league's runs were scored as the older circuit whitewashed the American league, 4 to 0, in the annual All-Star game at St. Louis, is shown in the above phonephotos. Outfielder Max West of the Boston Bees, left, gets a handshake from teammates as he crosses the plate on his homer in the first inning. On base when West hit his four-bagger were Billy Herman of the Chicago Cubs and Arkie Vaughan of the Pittsburgh Pirates, who is shown, right, sliding safely into third base after Herman had singled.

CHAMPS ADVANCE IN WOMEN'S GOLF

Mrs. Fallis Sets Pace In Ohio Tournament at Cincinnati

CINCINNATI, July 10.—The Ohio women's golf tournament had virtually developed into a battle of champions as the contestants blasted their way into the quarter-finals here today with Mrs. Linton Fallis of Toledo Inverness, the defending title holder, setting the pace.

Mrs. Fallis faced the smashing drives of Miss Isabel Ogilvie of Cleveland, after providing the principal thrills of yesterday's matches on the Lantaville course by defeating Mrs. Mont Red of Cincinnati in a one-hole.

Mrs. Burt Weil of Cincinnati, three times state champion, was to battle it out with Dolly Schildmiller of Cincinnati. Mrs. Weil defeated Carol Jean Sherrets of Coshocton 4 and 2 and Miss Schildmiller trimmed Martha Dakin of Lebanon 5 and 4.

Mrs. Platt Wins

Mrs. James Platt of Dayton moved into the quarter-finals against Dorothy Gardner of Steubenville by defeating Ruth Thomas of Cincinnati 3 and 1. Miss Gardner eliminated Marjorie Wendel of Dayton, 5 and 4.

By defeating Virginia Boes of Cleveland 8 and 6, Janet Shock of Dayton, another former champion, stepped into the quarter-finals against Mrs. Edward Goddard of Columbus. Mrs. Goddard took a 6 and 5 victory over Mrs. James Searl of Cleveland.

Miss Ogilvie defeated Jean Hopkins of Cleveland 5 and 4.

Wrestling Results

INDIANAPOLIS—Dorve Roche, 222, Decatur, Ill., defeated Chris Zaharias, 229, Pueblo, Colo., two of three falls. Pete Managoff, 218, St. Louis, defeated Angelo Cistoldi, 225, Boston, 18 minutes.

Colorful Dodgers to Face Pirates in Double-Header

PITTSBURGH, July 10.—A Sunday bargain double-header with the colorful Brooklyn Dodgers is the most popular drawing card that could be offered in the National league this year. So it follows that Forbes field in Pittsburgh will be a fan mecca this coming Sunday afternoon when the Pirates will tangle with the unpredictable Durocher troupe in two games, starting at 2 o'clock, eastern daylight saving time.

REAL ESTATE

THIS GOOD FARM IS PRICED LOW FOR QUICK ACTION

Fifty-three acres located about six miles southeast of Salem. This land is in a high state of cultivation. It lies up high and would be ideal for an orchard; about one acre now in orchard and about 5 acres of timber. Practically new bank barn with stanchion room for ten cows. Small house. Electricity available. The owner of this farm has other interests which demand his attention and for that reason is pricing it very low for a quick sale. This farm must be seen to be appreciated. Big Ship Crippled

VICHY, France, July 6.—(Delayed)—The British Battle Cruiser Hood, 42,100 tons, largest fighting ship afloat, was hit three times by French shore batteries during the July 2 naval battle at Mers-el-Kebir, said French reports reaching here today.

(The Rome radio, heard by CBS, said the Hood had been put into drydock at Gibraltar "for urgent repairs" necessitated by "serious damage" sustained in the battle.)

Study Flood Plan

TIFFIN, July 10.—Mayor Charles S. Yingling said today U. S. army engineers had submitted a Sandusky river flood control plan designed to save Tiffin \$9,000 annually by preventing property damage from high water. The proposal calls for city purchase of a site for a dam and islands north of here. The federal government would do all dredging.

French Leaders in Mourning

These are sad days for the French people and the Marshal Pétain government which capitulated to the Germans. In this photo, Pétain leads his people in a silent prayer before the memorial of the dead at Bordeaux. Next to Pétain are M. Jeanneney, president of the senate, and Edouard Herriot, former premier.

VOICE REGAINED AFTER 4 YEARS

Detroit Stenographer
'Lost' It When She Re-
minded Husband

(By United Press)
DETROIT — "Like being saved from drowning," is the phrase Mrs. Mary Gartner, Detroit stenographer, uses to describe her sensation on recovering use of her voice after four years of silence.

Mrs. Gartner was the victim of a rare throat disease which resulted in displacement of her larynx — the organ which produces vocal sounds. She says she lost her voice suddenly one day as she was reminding her husband, and for four years she was unable to speak above a faint whisper.

After years of treatment, a Detroit specialist finally despaired of curing her, and suggested that she submit to treatment in a New York hospital. Doctors who examined her in New York were dubious at first, and told her there had been few complete cures in such cases.

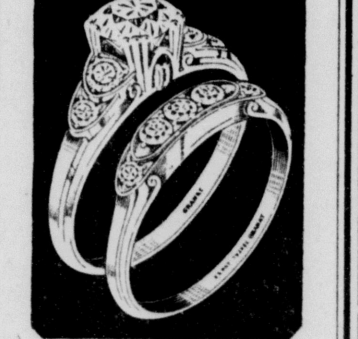

Mrs. Gartner insisted on taking a chance, however, and the first step in her treatment was the making of phonograph records of her whispered voice. Doctors studied those records, and then determined upon an infinitesimal change in the position of her larynx.

During the adjustment Mrs. Gartner kept talking—or rather whispering—while her doctor sought the exact position to which the larynx should be moved. Suddenly, as the specialist worked, her voice changed from a faint whisper to the full tone of her normal speech.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning!
The liver should pour 2 pints of bile juice into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. There's bloating up your stomach. You get constipated. You feel sour, sunk and the world looks puny.

It takes those good, old Carter's Little Liver Pills to get these 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Take as directed. Amazing in making bile flow freely. Ask for Carter's Little Liver Pills, 10¢ and 25¢.
